Measures of Success

How will you measure change or impact?

**THE BIG PICTURE**  
What do you want to achieve?

**Baseline Indicators**

(e.g. progress data, attitude to learning, confidence scales)

**Research**  
What do you need to research? Who can help? What sources will you use?

## Research Journey

What are you implementing?

What are you testing?

What will you do?

What results do you expect to see?
